

HOME FIRE PREVENTION TRAINING started early at the home of D. E. Bailey, a Y-12 fireman, and his wife, Mildred, as shown in these posed pictures pointing out some "don'ts" for grownups and youngsters alike. In the first picture at left Mrs. Bailey turns a pot on the kitchen stove so that it cannot be knocked off by little Karen, 18 months old, in front as big sister, Diane, 5, is in the rear. Karen also is instructed not to

play with the switches. Then Diane shows what no safe thinking parent will allow, playing with matches. Going outdoors, Daddy's little helper, Diane again, puts paper on a burning trash fire while Daddy has his back turned, but in the last picture Bailey has his hose ready—a smart trick in any outdoor burning—and puts the fire out. Such lessons should be taken by all Y-12ers during Fire Prevention Week, October 6-12.

Friday Final Day To Sign For Blue Cross

Double Deduction Set In November For Y-12ers Not Enrolled

Although the payroll deduction cards for the new Blue Cross hospitalization and surgical insurance that became effective in Y-12 October 1 are being returned at a fairly rapid pace, the Y-12 Insurance Office points out that Friday is the deadline for returning the cards if regular deductions are to be made for the month of October. Any Y-12er who is eligible to enroll in the Blue Cross and wants to do so, must have his card in by the deadline date or have two deductions made for the month of November, as no deduction will be made from pay checks by the payroll department for October unless the cards are in by October 11.

Two-Month Period Returns

Among the more important features of the Blue Cross coverage, which provides all of the benefits previously offered by the Connecticut General Life Insurance are conversion provision privileges for employees leaving the employ of Union Carbide Nuclear Company for any reason. The Insurance Department points out that after October 31, the two-month waiting period to enroll for hospitalization and surgical insurance under the Blue Cross again will be in effect for new employees during which they enroll without a physical examination. A wait of more than two months after employment without enrolling for the insurance will result in a physical examination being required to acquire the coverage.

Another provision cited for attention to Y-12ers is that if the employee and his wife are both employed by the Company, then to be covered by benefits each must be insured under the employee's coverage. Either husband and wife may insure their dependent children. If any child is employed by the Company he may be insured only under the employee's coverage.

Cards Expected Soon

It is expected that the Blue Cross identification cards soon will be distributed to all Y-12ers enrolling for the coverage. Booklets describing Blue Cross benefits also are expected soon. However, it is pointed out that the old Hospitalization and Surgical Plan booklets contain practically all the information needed.

Fred Williams' Death Saddens Y-12 Friends

Popular Photographer Widely Known In Plant

The unexpected death at Oak Ridge Hospital last Wednesday, October 2, of Fred Raymond Williams, 46, cast a pall of sorrow over the entire Y-12 Plant. Fred Williams was a photographer on the rolls of Oak Ridge National Laboratory but had been stationed in Y-12 since December 1, 1952. He had been assigned to do practically all the photography for The Bulletin since coming here in addition to technical work for the Y-12 Plant and ORNL.

Many Y-12ers At Rites

A large number of Y-12ers joined ORNL employees and other friends of the popular Williams at funeral services held last Friday afternoon at the Roberts Mortuary, Knoxville. Services were conducted by the Rev. John A. Churchman, pastor of the Ball Camp Methodist Church, of which the Williams family are members. Interment was in Woodlawn Cemetery, Knoxville.

The death of Fred Williams was attributed to a heart attack, although he had been in the hospital only two days for a checkup on a dislocated spinal disc. He first mentioned being ill from back pains on Wednesday, September 18, while on a photographic assignment for The Bulletin—incidentally, his last work in Y-12. He had been undergoing treatment for the spinal trouble and on the next day was instructed to go home for a rest.

Feeling Better Day Before Death

After that rest he reentered the hospital on Monday, October 2, for the checkup. On the next day friends visiting him reported the photographer stating he felt better, but shortly before noon he suffered the fatal heart attack and died at 12:10 p.m.

Among professional photographers and amateurs alike, Williams was considered as an artist in his profession. Without particular formal training in the field, his black and white and color pictures of technical and news subjects have been outstanding. Probably known, by sight, at least,

Continued on Page 4

HERE'S HOW FRED WILLIAMS looked to so many folks in Y-12—smiling, camera in hand and preparing to do his best with his picture box. The Bulletin believes Fred would like this picture best of all as a remembrance.

University Of Chicago Man To Address Seminar Meet

A University of Chicago scientist, Dr. P. M. Llewellyn, will speak at the regular Physics Seminar meeting at 4 o'clock on Friday afternoon of this week, October 11. His subject will be "Nuclear Moments From Paramagnetic Resonance." All Y-12 technical and scientific personnel interested in the subject are invited to attend. The meeting will be in Room 18, Oak Ridge Institute of Nuclear Studies Training Building, on Administration Road.

Dr. Pollard To Receive Honorary Divinity Degree

An honorary degree of Doctor of Divinity will be conferred on Dr. William G. Pollard, director of the Oak Ridge Institute of Nuclear Studies, by Grinnell College, Grinnell, Iowa, on October 24. He is a priest of the Episcopal Church. Dr. Pollard holds a Ph.D. degree in physics and also honorary doctorates in science from Ripon College, the University of the South, Kalamazoo College and also one in divinity from Hobart College.

Curb On Most Deadly Enemy—Fire—Objective Of Prevention Week Programs In Plant, Home

October 6-12 Good Period To Seek And Eliminate Hazards; Y-12 Fireman And Family Set Example

Fire is the most deadly enemy of life and property in both industrial plants and in the home—and the national observance of Fire Prevention Week in the United States and Canada is not just another week to pay lip tribute to fire departments and other agencies dedicated to fire prevention. It is the occasion to learn how to avoid fires, to seek out and eliminate fire and accident hazards at work and at home, to take every precaution against allowing conditions to exist that could permit a fire to start.

Fire Prevention Week is being observed in the Y-12—and by Y-12ers at home—during this week, October 6-12. The week is selected to include October 9—to-day—which is the anniversary of the tragic Chicago fire of 1871 that practically destroyed that entire city, killing many thousands of persons.

Make Plant Cleaner, Safer

By proclamation of Y-12 Plant Superintendent John P. Murray, Fire Prevention Week in Y-12 is dedicated to making the Y-12 Plant Area a cleaner and safer place in which to work with all employees complimented on the good record of fire prevention in the past and urged to continue to practice fire prevention throughout the year.

Few Y-12ers need to be reminded of the importance of practicing fire prevention at home as well as at work—particularly members of the Fire Department. For instance, there is D. E. Bailey, who is meticulous in keeping his home on Waddell Circle free of fire hazards for the protection of his wife, Mrs. Mildred Bailey, and their two daughters, Diane, 5, and Karen, 18 months. Ed Bailey is not the only member of the family to realize the importance of keeping their home free of fire hazards, as Mrs. Bailey is just as careful, learning the principles of fire prevention from her brother, Y-12 Fire Chief W. O. Elam.

Home Fire Hazards Shown

The Bailey family readily consented to pose for some pertinent pictures showing how some fire hazards can exist in a home—which are shown at the top of Page One of this issue of The Bulletin. In these four pictures some

IBM Official On Program Of Accountants Meeting

C. J. Rathe, Jr., District Manager of International Business Machines Corporation at Cincinnati, Ohio, will speak on "In-Line Data Processing and Its Effect on the Accountant" at a meeting of the Knoxville-Oak Ridge Chapter of the National Association of Accountants, Tuesday night, October 15. The regular monthly meeting will be held at the new Dwarf Restaurant on the Knoxville-Clinchton Pike, with the social period beginning at 6:30 p.m., dinner at 7 p.m., and the technical session at 8 p.m.

The Knoxville-Oak Ridge Chapter of the National Association of Machine Accountants has also been invited to attend the meeting. All interested persons are invited to the technical session if they are unable to arrive for dinner.

Dr. J. H. Rushton To Talk At AICHE Knoxville Meet

"Effective Management of Research and Development" will be the subject for Dr. J. H. Rushton, national president of the American Institute of Chemical Engineers, in his speech to a joint meeting of the Knoxville-Oak Ridge Section of the AICHE and the University of Tennessee Student Chapter Wednesday night, October 9. The meeting will be held in the University Center on West Cumberland Ave., Knoxville, at 8 p.m.

Dr. Rushton will be honored by an informal dinner at the University Center at 6 p.m., just preceding the meeting. Light refreshments will be served immediately following the meeting.

Joseph Holub

Veteran UCNC Buyer To Retire November 1

Joseph Holub Hired By Carbide In 1945

A veteran Union Carbide Nuclear Company employee with more than 12 years of Company Service will retire November 1 when Joseph Holub, a buyer in the Purchasing Department, will leave the organization. He was employed by Carbide and Carbon Chemicals Company in New York City January 30, 1945, and shortly afterward came to Oak Ridge.

His first work with Carbide here was in the Library at K-25. He was transferred to Purchasing in April, 1948, where he has been ever since.

Holub is a veteran of World War I, serving in the 121st Field Artillery Regiment of the 32nd Division and being awarded the Purple Heart. His three sons are veterans of World War II. Thomas J. Holub was at Pearl Harbor when it was attacked by the Japanese and now is with the communications division of the New York police department. Richard Holub was with the 13th Air Force in the Pacific during World War II and now is an instructor at Dickinson College, Rutherford, N. C. The third son, Robert Holub, served with the Supply Division in the Mediterranean and is a mechanic at College Point, N. Y.

Joseph Holub was born in Kewaunee, Wis., and attended high school there. He and Mrs. Holub plan to remain in Oak Ridge. They live at 162 California Ave.

"I have most pleasant memories of my employment with Carbide," Holub said last week, "and want to thank my many friends and acquaintances for favors done for me."

Prof. Jane Savage To Speak At Analytical Group Meet

Prof. Jane Savage, of the Nutritional Chemistry Department at the University of Tennessee, will speak on "Chemistry of Diet and Diet for Chemists" at the Analytical Chemistry Division of the American Chemical Society meeting at 8 p.m. Thursday, October 10. The meeting will be held in the Robertsville Junior High School Cafeteria and should be of interest to the wives of members who are also invited to attend. A door prize will be awarded.

LEE-LANE

Following their marriage on Friday, Sept. 27, Mr. and Mrs. Norman Glen Lee are at home in Concord following a wedding trip to Gatlinburg. The bride was Miss Patricia Lane, daughter of Mr. and Mrs. Donald Edward (Hazel) Lane, of Concord. He is with Electrical Maintenance and Mrs. Lane is secretary to George W. Flack, Y-12 Superintendent of Industrial Relations.

The wedding was at the Central Baptist Church at Bearden. The Rev. Henry M. Chiles, pastor, officiated. Wedding music was played by Floyd K. Cardwell, organist.

For her wedding, the bride wore a costume of soft rose sheer wool and a white satin hat. She carried a white orchid on a prayer book. Miss Karyl Lane, the bride's sister, was maid of honor. She wore a brown wool suit with a brown and beige feather hat. Her flowers were white carnations.

The bridegroom is the son of Mr. and Mrs. Clarence Lee, of Concord. His father was best man.

The bride is a graduate of Farragut High School and also attended the University of Tennessee. The groom also graduated from Farragut High School and is a student at the University of Tennessee.

MONTOOTH-SCARLETT

A marriage of interest to many Y-12ers because parents of both the bride and the groom are employed here, was solemnized September 9 at Ringgold, Ga., when Miss Margaret Andrea Scarlett and Edgar Huston Montooth exchanged wedding vows before the Rev. Harold C. Yates.

The bride is the daughter of A. J. Scarlett, Process Maintenance, and Mrs. Scarlett, of Beaver Ridge Road, Knox County. Parents of the groom are E. R. Montooth, also of Process Maintenance, and Mrs. Montooth, who live on Ball Camp Pike, also in Knox County.

The bride is a graduate of the University of Tennessee School of Nursing and now is employed at the Oak Ridge Hospital. The groom is with Montgomery and Co., Knoxville.

10 Years Service

Congratulations to the following Y-12 employees who will complete 10 years of Company Service within the next few days:

Harold V. Craft, Electrical Maintenance, October 9.

Roy F. Farmer, Steam Plant, October 13.

Lester L. Kilgore, Steam Plant, October 14.

Wade Eddington, Janitors, October 15.

William P. Mattingly, Research Services, October 15.

Kirby J. Duke, A Mechanical Operations.

United Nations Day Set For Observance October 24

S. R. Sapirie, Manager, Oak Ridge Operations, Atomic Energy Commission, has called to the attention of all AEC employees and those of contractors for the commission the proclamation of President Dwight D. Eisenhower calling on the nation to observe United Nations Day on Thursday, October 24.

The Presidential proclamation points out that the United States is one of the founders of the UN and calls on all Americans to encourage programs to demonstrate their faith in the organization and to better understand its accomplishments and objectives.

Mr. and Mrs. Norman G. Lee

Get-well wishes are sent to the following Y-12ers who were patients in Oak Ridge Hospital last week:

J. H. Hammond, Alpha Five Cascade Operations; A. C. Neely, Colex Auxiliary Operations; B. B. Coulter and N. A. Stone, Research Services; R. Harris, Perry Surber, and L. K. Flynn, Buildings and Grounds; J. H. Briggs, Janitors Department; F. W. Hughes, J. C. Stutts, Sr., and F. K. Blair, Process Maintenance; S. A. Starnes, General Machine Shop; Jack Neal, B Mechanical Operations; W. L. Seavers, Production Inspection; and Hugh F. Akin, Project Engineering.

Truck-Car Collision Snaps Safety String

Seventh Accident Of Year Is Registered

An automobile-truck collision last Wednesday, October 2, in the Bear Creek Portal parking lot sent one Y-12er to Oak Ridge Hospital with disabling injuries that resulted in the seventh lost-time accident of the year. Three other employees were treated at the Y-12 Dispensary but did not require hospitalization.

The accident occurred when an inbound privately owned automobile attempted to turn left across the approaching quarter-ton pickup truck, outbound from Bear Creek Portal. The resultant crash threw the injured Y-12er, a passenger in the truck body, against the truck cab, inflicting numerous cuts around the head and other bruises. The injured employee was expected to be hospitalized for several days.

The disabling injury followed by only five days the lost-time accident that broke the Y-12 Plant Area's 21st Union Carbide Safety Period at 3,100,922 hours of accident-free operations that extended from June 13 through September 26. During the brief period of safe operations approximately 131,000 man-hours of operations without a disabling injury were posted.

SPARKY SAYS:

You're SMART
When You're
Careful About FIRE

The Colyum Conductor was taking his annual strides through the fields of corn and clover last week end when he attended a University of Tennessee Institute for Industrial Editors—meeting old friends and make new ones among fellow corporation newsmen. But before taking off for Knoxville, his last beat pounding of the week starts out with—

CHEMICAL

The Chemical Department extends congratulations to its own Milo Ward and Jackie Ford, of General Utilities, who were honeymooning last week after their marriage September 28 (more details later, it is hoped) . . . June Sherrill and Jo Ann Isham took their husbands, Hudson and Ed, on a recent week-end trip to Atlanta . . . Paul Trebilcock managed to mutter he was Pennsylvania bound on vacation but such characters as Bob Schabot, Hallie Wade and C. T. Eldridge took off without notice as to their whereabouts . . . S. P. Vavalides is back from his tour of rest . . . The department warmly welcomes new hire Jimmy Freeman and also greets Marty Fricks back to the fold as a co-op.

Product Processing and the entire Chemical Division extend condolences to George C. Meredith, whose 17-year-old son, Gary Lawson Meredith, died September 29. He was a senior at Lenoir City High School . . . T. H. Ebert just bust in with news of arrival of a seven-pound, eight-ounce son on October 3—date of this writing—but the youngster hadn't been named right away.

SHIFT SUPERINTENDENTS AND GENERAL UTILITIES

L. L. Kilgore, Steam Plant, is vacationing first in Chattanooga and then will go on to Panama City, Fla., to visit his son . . . Get well wishes are extended W. M. Simpson.

B. G. Dyer, General Utilities, is vacationing up in Hammond, Ind. . . A. W. Byford headed South to Alabama and then reversed his field to land in Ohio.

FINANCE AND MATERIALS

The Cashier and Travel office welcomes Mildred Doosie and bids farewell to Barbara Pullen, transferred to Engineering.

Receiving and Shipping reported last Thursday that M. Ballew intended to watch the World Series on TV while vacationing this week—if it didn't end too soon . . . F. J. Sherrod left no forwarding address for his vacation hide-away.

SS Material Control is extending congratulations to Mr. and Mrs. Edward Owings, who are the proud parents of a son born September 30—weighed eight pounds, 13 ounces, and was named John Edward . . . Doris Mangum is visiting her parents in North Carolina.

W. S. Everett, Jr., Plant Records, is receiving get-well wishes. So is O. C. Hartman, of the Mail Room.

TECHNICAL

Moving seems to be fashionable in Mechanical Engineering as O. T. Smith has moved up to West Outer Drive and George Drevik is occupying one of those brick apartments on Purdue Ave. . . . Morris Clark is vacationing this week with a trip to Birmingham a possibility . . . The H. A. Pohtos entertained Mrs. P's brother and family from Cleveland, Ohio . . . The Russ Hensley's are turnpike cruising (what a sneaky way of running in a commercial) with the real McCoy these days . . . Lillian Higgins has one and all in goose-pimples telling about the big ones she landed while on her recent deep-sea fishing trip off the Florida coast . . . How they did it, no one knows, but Bob Lassiter and Ross Goosie report their wives

are now helping to bring home the bacon.

The Laboratory extends deepest sympathy to Doris Campbell, Laboratory Operations; and Daisy Ward, Production Analysis; whose father died recently . . . Condolences are also extended Nola Cherry, whose uncle died a few days ago.

Production Analysis sends rapid recovery wishes to Anna P. Smith and LeRoy Eggert—both out with the miseries . . . Jim Charles is believed to be home vacationing this week . . . Jincy Dingus is entertaining the Carl V. Johnsons this week . . . Doyle Martin is a vacationer . . . Paul Bonner week ended recently in Birmingham.

C Shift of Production Assay reports Harry Souther vacationing in Grainger County . . . C Shift reporter Carolyn Kitchens—brave soul—stuck out that Auburn-Tennessee swimming meet—even during the hardest rain—and there were a lot more C Shifters also earning merit medals for braving the elements . . . Sammie Mattingly also is a torrid football fan—she took in two football games while vacationing—just where, she didn't say . . . Neil Goodwin is another chap back from vacation.

Special Testing has a couple of new Proud Pops . . . Ralph Kent and Elmo Webb each report arrivals of new sons . . . Get-well wishes are rushed to the daughter of Tom Hamrick and the daughter of V. C. Jackson, both ailing in Oak Ridge Hospital.

MAINTENANCE

F. W. Gallagher saw a couple of World Series ball games on TV last week . . . E. G. Richardson and the missus were scanning the skies last week hoping for good weather to prevail during their planned trip to a beach in North Carolina . . . Grace Watkins and her husband, J. L., are vacationing up Virginia way with a trip through Blue Ridge Parkway, the Shenandoah Valley, the Skyline Drive and Washington, D. C.

Dan Stroud, Mechanical Maintenance, is back after a bout with the flu—Aged—not Asian—pals declare . . . M. E. Short shudda been an umpire—he was juryman over at Clinton recently . . . George Riddle and all these other guys around are watching the World Series on TV but Morris Bailis is for the real thing—he is vacationing to see the classic . . . None of that foolishness for L. E. Selvidge—he's farming, in between dodging rain showers . . . L. P. Parrett became a grandfather when his daughter, Wanda, had a son, Clyde Cravens, Jr., born 'way over in Paris, France . . . More grandfather news—G. D. Adams became one on his own birthday when his daughter gave birth to a son.

MECHANICAL OPERATIONS

They're getting some fancy new names down in Mechanical Operations—but let's start off with A Mechanical Operations, which remains the same as of last week . . . Get-well wishes are sent R. C. Murphy and J. H. Oldham . . . Condolences are extended B. R. Poston, whose mother died recently . . . Vacationers without forwarding addresses are H. H. Sanning, L. F. Otten and J. W. Heatherly.

In the Alloy Shop, formerly C Mechanical Operations, W. D. A. Langford and the missus are proud parents of a baby girl born September 29—they named her Debbie Kay and Pop is already learning the art of baby sitting . . . G. T. Bell is welcomed back after several days of illness . . . LeRoy Nabors is vacationing at home, and, perish the thought, may do some work . . . Leon Bray is reported to have had a recent battle with a squirrel—the squirrel won and is still champion, 'tis said.

Scribe M. M. Dickens, who used

Dorr Finally Wins All-Carbine Meet After Several Years Of Hard Effort

Review Shows Y-12 Golfers Take Most Honors In Past Two Years Of Company Tournament

"Often a bridesmaid—but never a bride." That trite phrase expressing frustration could be applied to Carl Dorr, 1957 All-Carbine Golf Tournament champion in several past seasons. Although he won several other titles and always has shown a consistent straight and strong golf game—the Company championship honor has been denied him in previous recent years.

In the 1956 tournament Dorr was defeated by Art Hines, the titlist that year, in the semi-finals. Hines went on to beat R. M. Duff, Oak Ridge National Laboratory, in the finals with the match extending to the 23rd hole. In 1955 Dorr reached the finals, only to be beaten by Palo O'Neal, former Y-12er now in the professional golfing field. The 1954 tournament found Dorr eliminated before the finals, with the championship going to O'Neal, who beat Hines in the finals.

The All-Carbine champion, however, won the club tournament at Oak Ridge Golf and Country Club in 1956 and also captured the Oak Ridge Invitational amateur honors the same year. Earlier this year he outlasted a flock of fine golfers in the Southern Appalachian tournament in Knoxville to bring back first honors.

A review of the 1957 All-Carbine shows that Y-12ers not only took first place in 12 of the 20 flights in the event, but in several had both finalists in a flight. In the Championship Flight there were four Y-12 entrants with Dorr surviving to beat V. B. Isham, ORNL, by four-three.

In the First Flight, W. Green, of K-25, beat Arnold Tiller, Y-12, in the finals, one up. In the Second Flight, Y-12 was shut out with the title going to Paul Harris, K-25.

Two Y-12ers In Third

The Third Flight final round saw Newt Hamby taking the championship from A. L. Sawyer, both being Y-12ers. Paddy Peckman, Bill Hamill and C. E. Harris were other Y-12ers in this bracket. Y-12er Bob Orrison captured the Fourth Flight by beating K-25er C. R. Starlin in the finals.

A Y-12 finalist, John Boyd, lost in the Fifth Flight, taken by Sy Smiley, K-25. In addition to Boyd, Y-12 had Dan Stroud, Jim Bartholomew and George Mitchel as contenders in this flight. Y-12ers also were shut out in the Sixth, won by John Hamilton, ORNL.

Another all-Y-12 finals were staged in the Seventh with C. C. Morgan easing out a win over Jay Holzknecht. R. C. Bryant won the Seventh Against Dave Clark, both being ORNL entrants.

Y-12 Has More Finalists

Again in the Ninth it was two Y-12ers battling for top honors, with J. M. Patterson nosing out W. C. Collins. L. B. Cabe and Charley Peterson also represented Y-12 in this bracket. The Y-12 rivalry again arose in the last round of the 10th when R. E. Plemons took a two-one decision from Nelson Tibbatts. Avis Collins and F. K. Clabough were other Y-12ers in this flight.

Karl Kahley carried Y-12 colors to the final round before losing to R. B. Strickland, K-25, in the 11th. Elmore Koons did likewise in the 13th but was beaten by Ted Kwasnoski, K-25.

Last Five Flights Won

Sewell Brown brought victory to Y-12 in the 14th by beating fellow-Y-12er George Everitt. Another win came in the 15th with J. D. Hall beating H. H. Sullivan, K-25. In the 16th, Rudy Pletz

Top Classic Teams Score Whitewashes

All three top teams in the Classic League took four-point whitewash victories last Thursday night. The Rippers beat the All Stars, Bumpers bumped the Swingsters and Has Been stung the Wasps. The Tigers also blanked the Rebels while the Cubs conked the Screwballs and Playboys topped the Wolves, each by three.

The Rippers posted the best team scratch scores with a 909 game and 2586 series. The Screwballs' 1041 was the best handicap game and the Cubs came through with a 3002 handicap series for tops. E. B. Galloway rolled a 210 scratch game for the best of the night while Bill Freels, Tigers, and Clyde Bowles, Cubs, tied at 241 for best handicap game. Paddy Peckman, Rippers, rolled a 557 scratch series and Bowles a 645 handicap series.

League standing follows:

Team	W	L
Rippers	17	3
Bumpers	13	7
Has Beens	12½	7½
Rebels	12	8
Playboys	9½	10½
All Stars	9	11
Wolves	9	11
Wasps	8	12
Swingsters	8	12
Screwballs	8	12
Tigers	8	12
Cubs	6	14

Nip and Tucks Get Whitewash Victory

The lowly Nip and Tucks almost escaped from last place in the Mixed League last week when they whitewashed the Scrappers for four points. Other results saw the Units and Clippers rolling to a two-point-each tie with the Alley Cats and Pin Cats doing likewise.

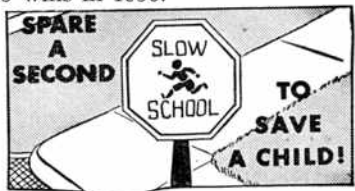

League standing follows:

Team	W	L
Clippers	13	3
Units	9	7
Scrappers	6	10
Alley Cats	7	9
Pin Cats	7	9
Nip and Tucks	6	10

Fitness Class Planned For Women

All Y-12 women employees interested in a physical fitness class are invited to communicate with the Recreation Department, Room 226, Bldg. 9704-2, plant telephone 7751. If organized, the class will meet weekly at the Woodland School gymnasium. Such a class last year proved popular with feminine Y-12ers, with a group of more than 20 meeting every week for several months.

tacked another Y-12 win on the list by taking Gene Boyd, K-25, into camp. Bill Ebert turned in first place in the 17th over J. M. Schmitt, ORNL. George Evans, Y-12, also was triumphant in the 18th, beating Joe Underwood in the 18th. Then in the 19th O. E. Gilcrease added another Y-12 win by whipping M. L. Taylor, ORNL. Y-12 had a total of 74 out of 160 entrants in the 1957 tournament and the 12 flight victories turned in exceeded the 10 out of 15 wins in 1956.

THE FIRST SEASON OF ARCHERY IN Y-12 just recently completed was a complete success and in the picture above Harlan Wright, Y-12 Recreation Supervisor, extreme right, is awarding trophies to the winning and runner-up teams in the league. Then from the right again, the first three men are members of the winning Split Stumps team, Roy Hardy, Production Inspection; E. W. Tompkins, Electrical Maintenance; and C. R. Schmitt, Development Operations. Then comes the second-place Broken Nochs team, Vaughn Reece, Research Services; Bob Roe and J. S. Jones, both of Electrical Maintenance. At extreme left is James Kyle, B Mechanical Operations, who topped the handicap scorers of the league. Other high scoring trophies went to Hardy, high scratch average; Reece, highest single scratch score; and Tompkins, highest single handicap score.

Early Birds Again Best Sportsmen

Managers Vote Award Second Year in Row

The Early Birds team of the Y-12 Plant Softball league won the coveted Sportsmanship Award for 1957. The award was made by a vote of the managers of the other teams in the league at the end of the season.

The Early Birds also captured a similar trophy last season when they were voted the best sportsmen in the National League, when two leagues were operating. The American League Sportsmanship Award went to the Rebels. In league competition this year the Early Birds were well down in the standings most of the year, although they won the National League pennant last season. However, they were defeated in the plant "World Series" by the 49ers in two straight.

As one manager pointed out, the Early Birds individually and as a team, conducted themselves admirably on and off the field during every game. Although usually understaffed for many games, they turned in an excellent won and lost record and never failed to report for every game they were scheduled to play.

Manager of the Early Birds was Hoyt C. Huston, of the General Machine Shop. The manager and team are to be congratulated.

Bush And Brewster Leading Pistoleers

Two good reasons why the Marksmen team romped away with top honors in the Y-12 Summer Pistol League are T. J. Bush and C. G. Brewster, who led the loop in scratch and handicap averages. Bush posted 269 and Brewster 288.042 for the summer season. Other leading pistoleers and their scratch and handicap averages are O. C. Beatty 235, 287.944; H. Bender 218, 288.011; J. V. Bible 230, 287.076; W. B. Davis 214, 286.289; J. C. Ezell 250, 282.654; J. V. Ledbetter 224, 288.029; J. H. Rowan 248, 287.398; R. L. Vanderpool 261, 289.539; P. H. Williams 251, 286.206; and M. L. Woodard 228, 279.264. Bush's handicap average was 286.759 and Brewster's scratch average was 248.

J. V. Bible has been elected captain of the Y-12 team for the fall and winter season, which opens on Tuesday night, October 31. With Page Oksmen team having won titles two years in succession, shooters are urged to

THE BEST SPORTSMANSHIP AWARD for the 1957 season of the Y-12 Plant Softball League has been voted to the Early Birds, above. In front, from left, are G. O. Butters, Bill Helms, M. J. Kosier, T. W. Compton and O. J. Rhea. Standing are J. B. Bowman, R. F. Knott, Manager Hoyt Huston and J. R. Murph. Squad members not present when picture was made were R. E. Gilson, P. W. Bullard, C. E. Spradlin, J. L. Williams, J. D. Meadows and E. E. Hickman.

THIS CANTANKEROUS CRAPPIE used to reside in Swan's Pond until rudely removed therefrom by J. T. Shumpert, Stores, to be entered as a likely candidate in the Annual Y-12 Fishing Contest. The fish was caught with a hadacol lure.

turn out for the fall and winter season to provide more opposition for the Marksmen.

MOST FAMILIES OWN CARS

Almost 75 per cent of American families own automobiles and 14 per cent own two or more cars. The highest proportion of two-car families is in the Rocky Mountain and Western states.

Lots Of Time Left In Fishing Contest

There still is plenty of time for Y-12 anglers to report their entries in the 1957 Fishing Contest for all Y-12 Carbide employees that does not close until midnight, December 31. Handsome prizes are to be presented winners and runners up in the different species of fish eligible for the contest.

The fish eligible for prizes are largemouth, smallmouth and striped bass, walleye and sauger pike, crappie, bluegill-bream, rough fish (catfish, drum and carp) and trout.

Plant fishermen may obtain entry blanks for the contest at the Recreation Department, Room 226, Bldg. 9704-2. Anglers are urged to keep a supply of the forms on hand so not as to be caught short-handed if a "big un" is unexpectedly hooked.

With the contest closing December 31, all entries must be submitted to the Recreation Department not later than 4 p.m., January 15, 1958, for judging.

For security's sake—keep safes and vaults locked.

Hornets Hold First Despite Dividing

In C League bowling action last week the first-place Hornets split a battle with the Alley Cats, two up. Murderer's Row lost a chance to move from second to first by dropping a three-point decision to the Hi Balls. In other loop action the B Shift took a three-point win from the Sooners and the Chillers and Daffodils split a four-point match.

In scoring, Graham, of the Alley Cats, led the scratch single with 192 while Peters, B Shift, topped the scratch series with 494. Powers, of the B Shifters, took the handicap single and series scoring with 240 and 633, respectively. In team scoring the Chillers took the team handicap single with 995. The Alley Cats dominated the team scoring, however, with a 774 scratch single, a 2263 scratch series and a 2785 handicap series.

League standing follows:

Team	W	L
Hornets	14	2
Murderer's Row	12	4
Alley Cats	10	6
B Shift	7	9
Hi Balls	7	9
Chillers	6	10
Sooners	5	11
Daffodils	3	13

Daughter Of Y-12er Named Leader Of Youth Symphony

Sue Cantrell, daughter of Lloyd E. Cantrell, General Machine Shop, is the Concertmistress of the newly organized Oak Ridge Youth Symphony Orchestra. The Youth Symphony, which is designed to give talented musical students experience in ensemble playing, is composed of some 35 youngsters from the high school and the junior high schools.

The orchestra rehearses each Tuesday night from 7:15 to 8:15 o'clock under the direction of Anthony Rasis, Oak Ridge High School Music Department. "There is good representation in all sections of the orchestra," reports Conductor Rasis. "However, we could use another trumpet, and more strings." Interested students are invited to contact Rasis at the high school.

International Letter Week Program Is Urged By Hicks

International Letter Writing Week will be celebrated in Oak Ridge from October 6 to 12, Postmaster Van D. Hicks announced last week. Hicks pointed out that the Post Office Department is joining in the observance of International Letter Writing Week—an annual event celebrated to emphasize the meaning and value of letter writing as symbol of American freedom.

The week is sponsored to help establish better relations throughout the world by writing letters to peoples of all countries. In stressing participation in the program, Hicks said, "I urge all citizens of Oak Ridge to join in this first celebration of International Letter Writing Week and at the same time write that overdue letter to friends and relatives in America."

Nearly 28 per cent of U. S. drivers involved in fatalities in 1956 were under 25 years of age.

Rides Wanted, Offered

Ride wanted from Allen Ave., Norwood section of Knox County, to Central Portal, straight day. Imogene Patrick, plant phone 7118.

Ride wanted from Smithwood section of Knox County to Central Portal, straight day. Lib Kilby, home phone 6-4386, plant phone 7382.

Want two or three riders to join car pool from vicinity of West Haven or 17th and Highland Ave., Knoxville, to Central Portal, straight day. C. C. King, home phone 5-1312, Knoxville, plant phone 7-8667.

Want riders from Chapman Highway or West Knoxville to East, North or West Portal, straight day. Bill Hood, home phone 7-2412, Knoxville, plant phone 7-8382.

Want to join car pool from 100 Oak Lane, Oak Ridge, to Central Portal, straight day. Carol Walker, home phone 5-4418, plant phone 7-8291.

Want to join car pool from Harriman to East Portal, straight day. John Henley, home phone 1390, Harriman, plant phone 7-8226.

Car pool members wanted from Bradshaw Lane, Norwood section, to any portal, straight day. L. A. Harris, plant phone 7162, home phone Knoxville 6-7127.

Ride wanted or will join car pool from 673 West Outer Drive, Oak Ridge, to North or Central Portal, straight day. O. T. Smith, plant phone 7421, home phone, Oak Ridge 5-9865.

Four riders wanted from Smithwood section, Fountain City, via Fair Ave. and Cedar Lane to any portal, straight day. C. E. Keaton, plant phone 7048, home phone Knoxville 6-5969.

Turkey Shoot Is Planned October 22 By A Shift

Y-12ers on the A Shift will hold their first turkey shoot of the season at 10 o'clock Tuesday morning, October 22. The shoot will be held at the old Oliver Springs airport, according to C. R. Rea, C Shift Recreation Committee chairman. A 12-gauge Winchester pump shotgun will be awarded through a drawing.

FAITHFUL RETRIEVER

A dog in Hawno, Wis., recently proved himself an extraordinary retriever, according to a news story. The dog retrieved a duck—already cleaned, dressed and wrapped in cellophane.

SCOOPBURGER RETURNS TO SPECIAL BY REQUEST

Two popular dishes are to be served on the 50-cent Special Lunches at the Y-12 Cafeteria tomorrow, Thursday, October 10; and next Tuesday, October 15. Baked beans and Canadian bacon will be the entree on the Special Lunch tomorrow. By special request of many patrons of the Cafeteria, the main dish on next Tuesday will be the Scoopburger. Each Special Lunch also includes one vegetable, choice of salad or dessert and rolls and butter.

TWO INTERESTING PICTURES

took top honors in the Y-12 Weekly Photographic Contest for the week ending October 4. At top is a picture by B. B. Addison, General Machine Shop, of his grandson, Stub, who is son of James Addison, former Y-12er now living in Atlanta, that took first place. The picture of a suspension bridge at Gatlinburg by G. A. Clark, Process Maintenance, bottom, took second place.

Curb On Fire Object Of Prevention Week

Continued from Page 1

of the more common fire hazards are shown—with the parents correcting the youngsters where they unconsciously are creating a fire hazard—such as playing with matches or tossing paper on a trash fire temporarily unguarded. Needless to say, the Baileys are quick to correct both of their little girls if found doing such things. They are taught the safe and proper use of heat and fire—not only by words but by example.

The best recommendation for home fire prevention is to keep residences free of rubbish and trash, closely inspect electrical wiring and appliances for faulty insulation or other imperfections, be careful in the kitchen with its dangers of burning grease or other foods, don't smoke in bed, and to avoid exposing flammable liquids, such as cleaning fluids, and other material to fire and heat.

Campaign On In Plant

Throughout the Y-12 Plant Area this week a thorough campaign to eliminate fire hazards is being made by all divisions and departments. All supervisors are being urged to coordinate their efforts to clean up areas inside and outside of buildings and to remove all excess material which could become a fire or accident hazard.

The subject of fire prevention has been taken up at safety meetings all over the plant, with safety and fire committees making inspections in search of any possible hazards. Follow-up inspections are to follow Fire Prevention Week, and it is safe to predict that the hazards remaining will be few and far between, as Y-12ers intend to "let fire go to start."

Keep vision clear of collisions here.

to correspond for F Mechanical Operations, now calls his outfit the Production Control Department . . . At any rate he declares that C. H. Edwards has joined the Proud Pop's Club with the birth of a son born September 22, weighing nine pounds, 14 ounces—but he isn't named yet . . . Sympathy is extended M. Patterson, whose mother-in-law died recently . . . Get-well wishes are sent to the wife of Howard Loveday—she's in a Virginia hospital . . . The H Shift gang is glad to have G. W. Phipps join the group.

Sam Simmons, General Machine Shop, is expecting his son home from Elon, N. C., College this week end . . . H. H. Vaughn is visiting his son in Toledo, Ohio . . . Russ Hopper plans a visit to his father at Barbourville . . . B. B. Addison plans to go to Gatlinburg for a couple of days and then back to Oak Ridge for some work around the house . . . B. J. Beck is vacationing in Oak Ridge and Hickory, N. C., J. R. Aytes is in Kingston and Chattanooga and W. H. Park is at home in Norwood . . . Otis Rackley made a flying trip to Washington, returning by automobile . . . Get-well wishes to J. R. Gresham and J. N. Brewer, both on the sick list . . . Sympathy is extended J. B. Graham, who received word last week of a serious accident to his brother, who was seriously burned on his job and was not expected to recover.

INDUSTRIAL RELATIONS

The Medical Department extends greetings on its own behalf and the rest of the plant to Dr. Lee S. Smith, Jr., the newest member of the staff. Dr. Smith is a native of Tullahoma, Tenn., got his medical degree from the University of Tennessee Medical College at Memphis and now is living with Mrs. Smith on Virginia Road, Oak Ridge.

J. M. "Jiggs" Sievers, Security, last week was planning to shuck his shoes and quote Watch the Yankees win unquote—how well he predicted will be seen this week if folks start calling him Shoeless Sievers . . . Lee Bagwell, the Saachem of Safety, couldn't stand those rains out in Norwood last week so he took off for a week visiting kin folks in Alabama.

"Superchief" W. O. Elam is spending a week at his Heiskell farm . . . H. L. Miller is another TV watcher of World Series games this week . . . R. E. Lewis has returned from a vacation at turbulent Little Rock, Ark.—reports he is still hale and hearty.

Now, if the high tides around Bldg. 9704-2 have receded—(this is still Thursday afternoon)—the long trek to the big city will begin. S'long 'til next time.

Y-12 Man Is Chairman Of Ridge Y.M.C.A. Group

The Oak Ridge Y.M.C.A. announces a full agenda for the regular meeting of the board next Thursday, October 10, at 6:30 p.m. at the Oak Terrace. Oak Ridge Y.M.C.A. president Van D. Hicks said last week that this would be the first full board meeting to be held since the affiliation of the Oak Ridge Y.M.C.A. with the Knoxville Y.M.C.A. July 1. John E. Perry, Development Operations, is chairman of the Housekeeping and Building Committee which is one of four existing permanent committees.

Electrical Engineers Set Talk On Cooled Reactors

The Oak Ridge Section of the American Institute of Electrical Engineers will hold its regular meeting Thursday, October 10, at

VICKI MILLER, 3, daughter of H. L. Miller, Fire Department, has her puppy "speaking" for his bone in this cute picture.

Fred Williams' Death Saddens Y-12 Friends

Continued from Page 1

by as many Y-12ers as anyone in the Y-12 Plant Area, he has photographed hundreds of employee activities—picnics, sports, parties, dances, as well as making pictures of many plant activities for feature stories for The Bulletin. That last assignment of his was in photographing the retirement ceremonies for James T. Firestone and Charles P. Spires, who left the Company employ on September 30.

Friendliness, Courtesy Outstanding

Not only was Fred Williams admired for his professional ability—but his friendliness and courtesy on every assignment made him well-liked by everyone with whom he came in contact. The feeling was reciprocated—as Fred had as much fun on an assignment for The Bulletin as any participant. In technical photography, no pains were too great to take to produce pictures perfect for the purpose for which they were meant.

The throngs of friends of Williams throughout Y-12 hastened to convey their sympathy to the survivors. They include the widow, Mrs. Ruby Witt Williams, of Williams Road, Rt. 3, Concord; a daughter, Evelyn, 25, Oak Ridge, employed by ORNL in the Y-12 Plant Area; Jane, 18, who lives at home; a son, Ray Melvin, 24, of Niagara Falls, N. Y., and another, Benton, 27, of Maryville, Tenn. Ray Williams has one daughter and Melvin three little girls. In addition, Fred Williams is survived by his father, W. B. Williams, of Knoxville; and three sisters, Mrs. Hazel DeMarcus, Mrs. Rose Hutcheson and Mrs. Maude Mowell, all of Knoxville.

Native Of Knoxville

Fred Williams was born in Knoxville January 16, 1911. He went to the Belle Morris elementary school and graduated from the former Stair Technical High School. Before coming to Oak Ridge to go to work for the former Clinton Laboratories, now ORNL, on August 16, 1943, he was with the Tennessee Valley Authority photographic section. On December 1, 1952, he was transferred to the Y-12 Plant of Carbide, later being transferred back to the ORNL rolls on July 15, 1956, although remaining assigned to work in Y-12.

In the death of Fred Williams, those closely connected with him at Y-12 and ORNL have suffered a great personal loss of a true friend and fellow employee to whom no assignment was too trying if it pleased others.

To say he will be sadly missed can be the understatement of the year.

7:30 p.m. in the Coral Room of the Ridge Recreation Hall. The speaker will be A. P. Fraas, of the Oak Ridge National Laboratory, and his subject will be the design, performance, and economic aspects of the gas-cooled reactors.
